Gentlemen:

The U.S. Department of Energy/Rocky Flats Field Office (DOE/RFFO) is officially transmitting the Operable Unit No. 3 (OU 3) addendum to Technical Memorandum No. 2 (TM#2) Human Health Risk Assessment Exposure Scenarios for your review and approval.

We are accelerating the schedule for the OU 3 Project to meet the pre-dispute milestone date of October 30, 1995 for the Draft Remedial Investigation (RI) Report. Our ability to meet this date and not require the schedule extension in the Dispute Resolution Agreement of February 10, 1995, requires prompt review and approval of the remaining project TM's. In anticipation of your comments on the TM #2 addendum, I propose a meeting within 15 working days to review your comments. Your offices will be contacted to arrange this meeting.

If you have questions or require additional information in your review of the TM #2 addendum, please contact Bob Birk at 966-5921.

Sincerely,

Steven W. Slaten
